Profile

As a dedicated 4th-year Engineering student, I am proficient in a range of programming languages and have hands-on experience in database management, machine learning. My enthusiasm for leveraging technology to solve complex problems is matched by my strong creative and analytical skills. Known for my attention to detail and collaborative spirit, I thrive in team environments and am committed to driving technological innovation. .

Education

Maulana Abul Kalam Azad University of Technology, West Bengal

July 2022 – present

B.tech in Information Technology

- Average SGPA: 8.29/10.0

Burdwan CMS High School

July 2020 – June 2022

West Bengal Board of Higher Secondary Education (WBCHSE)

- 72%

Ramharipur Ramakrishna Mission High School

Jan 2014 – June 2020

West Bengal Board of Secondary Education (WBBSE)

- 85%

Skills

- **Programming Languages:** Java, python
- **Other Skills:** C, MySQL, numpy, pandas ,matplotlib, scikit-learn
- **Tools:** GIT, Github
- **Soft Skills:** Teamwork, Communication, Problem Solving

Projects

Stock Price Prediction

- Developed a machine learning and deep learning-based system to predict future stock prices using historical market data, enhancing decision-making for traders and investors.
- Built and trained Long Short-Term Memory (LSTM) neural networks to capture temporal dependencies in stock price movements.
- Technologies Used: Python, Pandas, NumPy, Matplotlib, TensorFlow/Keras, Scikit-learn

Parking Lot Allotment

- Designed and developed a system to efficiently manage parking slot allocations for incoming vehicles.
- Key features included: real-time slot allotment, tracking of parked vehicles, and automated deallocation upon vehicle exit.
- Languages Used: Java

Payroll Management System

- Developed a robust system to automate payroll processes, including salary computation, employee record management, tax and deduction calculations, and bonus allocations.
- Implemented functionality for generating payslips and securely storing all payroll data in a relational database.
- Technologies Used: MySQL
